

# **2022 ANNUAL REVIEW OF PROCUREMENT ACTIVITIES UNDER THE PROCUREMENT POLICIES AND RULES**

Prepared by:

The Procurement Policy and Advisory Department

April 2023

## Executive summary

This report, prepared by the Procurement Policy and Advisory Department (PPAD), reviews public sector procurement contracts signed in 2022, funded and/or administered by the Bank, procured by the Bank's clients and entered into the Contract Review and Award database before the date of generating this report (31 March 2023). A separate section (2.16) covers the procurement activities of the Nuclear Safety Department (NSD).

In 2022, a total of 281 contracts (excluding NSD contracts) were signed by the Bank's clients. The total value of these contracts amounted to € 3.290 billion, for which EBRD's own financing represents € 1.581 billion. In comparison with 2021, this is a decrease in the number of signed contracts (39 per cent, noting that 2021 has an unusually high number of contracts compared to previous years) and an increase in the total contract value (18 per cent). In addition, PPAD provided direct support to the Natural Resources team for the Naftogaz Eurobond Facility, Ukraine and the Moldova Gas Facility. In total 50 contracts for a value of € 431 million were signed. Due to the confidential nature of the pricing of natural gas, the breakdown of the contract prices are not included in the overall statistics of this report. However, the overall number of contract including these projects is 331 with a total value of €3.721 billion, a record overall figure for public sector contracting.

The average contract value was € 11.7 million and the average EBRD financing € 5.6 million per contract. The largest contract placed was for the Construction of two Combined Cycle Gas Turbine Units with a total capacity of at least 900 MW in the Talimarjan Power Project, Uzbekistan, in the amount of € 761 million.

As in previous years, the contracts awarded through competitive processes (alternative and direct selection excluded) constitutes the majority of contracts, representing 75 per cent of the total number of contracts and 59 percent of the total contract value. The interest of companies to participate in EBRD financed tenders remains at a high level. The total number of tenders submitted in 2022 was 915. Out of these tenders, 65 per cent were submitted by tenderers from EBRD Countries of Operation (in their own or other Countries of Operation) resulting in the award of 217 contracts (78 per cent of all contracts) with a total value of € 1.78 billion (54 per cent of the total contract value).

Companies from the following five countries were most successful in terms of highest total contract value: Türkiye (€ 994 million), Spain (€ 761 million) Romania (€404 million), Bosnia and Herzegovina (€ 234 million) and China (€ 187 million). In total, these contracts represent € 2.580 billion or 78 per cent of the total contracted value.

Cross-border participation in tendering for EBRD financed contracts in Countries of Operation remain at a high level (53 per cent), where 18 per cent of all contracts were won by companies from Countries of Operation competing in other Countries of Operation.

PPAD handled 16 complaints, which is four more than 2021.

As of 31 December 2022, based on the Bank's commitments at the time, the contract pipeline shows that in the forthcoming four years, the Bank's public sector clients are expected to sign in excess of 1,752 contracts for an amount exceeding € 14.95 billion (EBRD funding €10.1 billion) under 231 projects.

It should be appreciated that with the relatively small number of contracts spread across different sectors and Countries of Operation that are covered on a yearly basis in this report, the data set is not sufficiently representative to be used for comprehensive analysis of trends. Contracting activities will inevitably reflect the investment and volume that the Bank finances rather than more general trends in the market.

The war in Ukraine has had a significant impact on procurement activities and is further explained in section 4.3.2.

## **Annual Review 2022**

### **1. Introduction**

This report, prepared by the Procurement Policy and Advisory Department (PPAD), reviews public sector procurement contracts signed in 2022, funded and/or administered by the Bank and procured by the Bank's clients and entered in the CRA before the date of generating this report (31 March 2023). A separate section (2.11) covers the procurement activities of the Nuclear Safety Department (NSD). This report covers goods, works and consultancy contracts procured and contracted by the Bank's clients, regardless of source of funds.

#### **The data used in the report**

The reporting format uses concurrent data. This means that the historical information (year to year data) from each annual report will in this report may show a larger number of contracts than reported in the previous years as historical contracts will continue to be entered into the system when received the Bank from the clients. Compared with the 2021 Annual Procurement Review, there are 115 contracts (78 contracts in 2021, 21 in 2020 and six contracts in 2019) worth a combined total of €351 million, which have been added to this report. The main reason why contracts signed in one particular year are entered into the system after the report is produced, is that contracts are often only submitted to the Bank when the first disbursement for the respective contract is requested or as part of other reporting requirements to the Bank, especially when alternative procurement procedures are used.

Annexes 1 to 10 of the report contain the statistical data for the public sector contracts signed during 2022. The analysis of these data, as well as the procurement activities of PPAD (Section 4), can be found in the main body of this report.

A list of the contracts that have been entered into the CRA system since the previous report can be found in Annex 11.

## 2. Analysis of public sector procurement data

### 2.1-2.12 covers the 2022 data

#### 2.1 Volume and number of contracts

##### 2.1.1 Overview

Number of contracts signed by the Bank's clients (excluding NSD)	281
The total value of these contracts amounted to	€ 3.290 billion
Total number of signed contracts compared with last year	39% decrease
Total value of signed contracts compared with last year	18% increase

##### 2.1.2 Average values of all contracts

	2021	2022
Contract value (€ million)	6.1	11.7
Average EBRD financing per contract (€ million)	4.3	5.6

##### 2.1.3 Large value contracts

	2021	2022
Number of contracts with a value above € 10 million but less than € 20 million	64	42
Number of contracts with a value above € 20 million	32	20

**The largest contract by value** was for the Construction of Two Combined Cycle Gas Turbine Units with Total Capacity of at least 900 MW in the Talimarjan Power Project, Uzbekistan in the amount of € 761 million, with EBRD funding of € 243 million.

#### Analysis by country of operation

Number of countries of operation with public sector contracting activities: **28**

##### The countries with the highest number of contracts signed:

Rank	Country of Operation	Number of contracts	% of total contract number
1	Romania	41	14
2	Türkiye	26	9
3	Uzbekistan	25	9
4	Tunisia	17	6
5	Kyrgyz Republic	14	5
<b>Total</b>		<b>123</b>	<b>43</b>

##### The countries with the highest total value of contracts:

Rank	Country of Operation	Value of contracts (€ million)	% of total contract number
1	Uzbekistan	880	27
2	Türkiye	821	25
3	Romania	404	12
4	North Macedonia	239	7
4	Bosnia and Herzegovina	237	7
<b>Total</b>		<b>2.581 billion</b>	<b>79</b>

## 2.2 Analysis by type of contract

**Table 2.3.1** gives the distribution of contracts by size and type in 2022. The 109 works contracts represented the largest total value by contract type (85 per cent of the overall contract value) as well as the largest proportion in value financed by EBRD and EBRD administered grants € 1,206 million out of € 1.580 billion.

Contract Size (€ million)	Works	Goods	Consultant Services	Total
0~0.3	7	34	41	82
0.3~7.5	67	38	37	142
>7.5	35	21	1	57
<b>Total</b>	<b>109</b>	<b>93</b>	<b>79</b>	<b>281</b>
<b>Total Value (€)</b>	2,825,031,223	399,164,300	65,741,757	3,290,056,932
<b>Average value (€)</b>	25,917,718	4,292,089	832,174	11,708,388
<b>Fund Portion* (€)</b>	1,206,889,685	330,799,814	43,251,969	1,580,941,468

\*Loan and EBRD administered Grants

**Table 2.3.2** illustrates the most successful companies by their country for each contract type in 2022

Contract Type	Tenderer Country	Share of Overall Value for category
Consultant Services	France	27%
Goods	China	18%
Works	Spain	27%

## 2.4 Distribution of contracts by award method in 2022

**Table 2.4.1** illustrates that the majority (213) of the public sector contracts were awarded through open and competitive tender. This represents 75 per cent of the total number of contracts awarded and 59 per cent of the total contract value. Open tendering only applies to goods and works, and competitive procedures applies to consultancy services contracts procured in accordance with the PPR.

Contract Size (€ million)	Open	Direct Selection	Competitive	Alternative <sup>1</sup>	Total
0~0.3	34	13	26	9	82
0.3~7.5	79	0	35	28	142
>7.5	38	1	1	17	57
<b>Total</b>	<b>151</b>	<b>14</b>	<b>62</b>	<b>54</b>	<b>281</b>
<b>Total Value</b>	<b>1,904,933,975</b>	<b>50,457,425</b>	<b>51,270,741</b>	<b>1,282,781,694</b>	<b>3,290,056,932</b>
<b>Average Value</b>	<b>12,699,560</b>	<b>3,604,102</b>	<b>826,947</b>	<b>23,755,217</b>	<b>11,708,388</b>
<b>Fund Portion</b>	<b>1,197,002,822</b>	<b>42,844,661</b>	<b>41,293,741</b>	<b>299,187,146</b>	<b>1,580,941,468</b>

<sup>1</sup> Alternative procurement is the categorisation given to those contracts for which the Board has granted an exception from the application of the PPR, subject to use of Alternative Competitive procurement methods.

## 2.5 Level of participation

### 2.5.1 Overview

A total of 915 tenders from 57 countries were received during 2022, which is an increase in the participation rate per contract, although a decrease in absolute numbers as compared to 2021 (1,480). On average, 3.3 proposals were submitted when open and competitive procedures were applied (compared with an average of 3 proposals in 2021).

Companies from the following five countries were most successful in terms of highest total contract value, winning in total € 2.580 billion or 78 per cent of the overall contract value:

Tenderer Country	Awarded Value
Türkiye	€ 994 million
Spain	€ 761 million
Romania	€ 404 million
Bosnia and Herzegovina	€ 234 million
China	€ 187 million

Companies from the following five countries were most successful in terms of number of awarded contracts, winning in total 111 contracts (40 per cent of the total number of contracts) worth €1,290 million, which represented 44 per cent of the total contract value:

Rank	Tenderer Country	Number of Contracts
1	Romania	41
2	Türkiye	30
2	Bosnia and Herzegovina	16
4	Bulgaria	13
5	Kyrgyz Republic	12

**Table 2.5.2 Distribution of tenderers by country of origin (2022)**

The column “Rate of Success” seen in **Table 2.5.2** provides an indication of the ratio of the award of contracts and the number of tenders submitted by entities from each country.

Tenderer Country	Signed Contract Value (EUR)	% of Total Value Won	Number of Contracts Won	% of Total Contracts Won	Number of Unsuccessful Tenders	Total Number of Tenders	% Rate of Success	% of Total Tenders Submitted
Afghanistan	0	0.00%	0	0.00%	1	1	0.00%	0.11%
Albania	2,109,413	0.07%	1	0.36%	20	21	4.76%	2.30%
Armenia	550,261	0.02%	2	0.71%	6	8	25.00%	0.87%
Australia	0	0.00%	0	0.00%	1	1	0.00%	0.11%
Austria	14,109,950	0.43%	8	2.85%	19	27	29.63%	2.95%
Azerbaijan	55,680,861	1.69%	4	1.42%	7	11	36.36%	1.20%
Belarus	2,580,750	0.08%	2	0.71%	2	4	50.00%	0.44%
Belgium	715,400	0.02%	2	0.71%	4	6	33.33%	0.66%

<b>Total</b>	<b>3,290,056,932</b>	<b>100%</b>	<b>281</b>	<b>100%</b>	<b>634</b>	<b>915</b>		<b>100%</b>

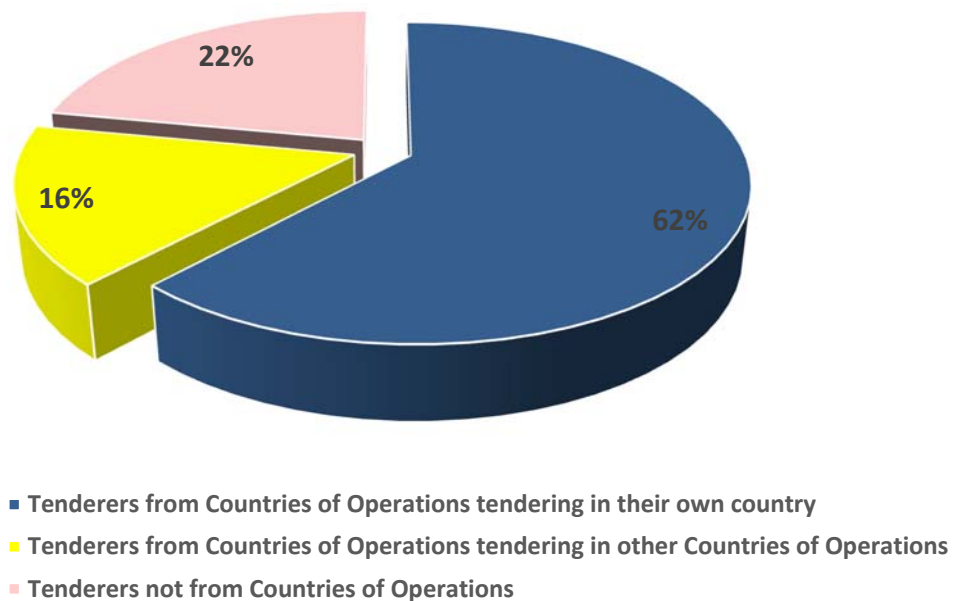

## 2.6 Analysis by origin of tenderer

**Chart 2.6.1a: All submitted tenders** shows that out of the 915 tenders that were submitted, 65 per cent were submitted by tenders from Countries of Operation.

**Chart 2.6.1b: All successful tenderers (number of contracts)**

The chart shows that out of the 281 contracts awarded, 62 per cent were won by companies from Countries of Operation tendering in their own country and 16 per cent were won by companies from Countries of Operation tendering in other Countries of Operation. In total 78 per cent were won by companies from Countries of Operation.

## 2.7 Success of entities from Countries of Operation

**Table 2.7.1** illustrates the success of companies from Countries of Operation

	Number of Contracts	Percentage of the total number	Value of Contracts (million)	Percentage of the total Value
Contracts won by entities from the Countries of Operation	217	78%	€ 2,348	71%
Contracts won by entities from the Countries of Operation in their own country	174	62%	€ 1,560	47%
Contracts won by the entities from the Countries of Operation in a country which is not their country of origin	43	16%	€ 788	24%
Contracts won by the entities not from the Countries of Operation	64	22%	€942	29%

In 2022, companies from the following 11 countries of the Bank Countries of Operation won contracts only in their own country.

These countries were: Albania; Egypt; Jordan; Moldova; Morocco; North Macedonia; Romania; Tajikistan; Tunisia; Ukraine and Uzbekistan.

## 2.8 Co-Financing

In 2022, 143 contracts (50 percent of total number) were co-financed. The total value of these co-financed contracts was € 2,122 billion of which the EBRD financed € 1,368 million. The balance of € 754 million were provided by other sources, such as other financial institutions (IFIs, EU Agencies, bilateral donors etc.) or by the borrowers themselves.

## 2.9 Public sector procurement with sub-sovereign clients

		Percentage of total contracts	Compared to previous year
Number of contracts	88	31	19% Increase
Value of contracts (€ million)	924	28	15% increase

## 2.10 Alternative procurement

Alternative procurement is the classification given to those contracts which are co-financed with other International Financial Institutions and for which the Board has granted an exception under paragraph 2.4 of the PPR from the use of the Bank's procurement procedures. In such cases, these contracts are procured under rules and procedures applicable to the co-financing institution as well as subject to acceptable alternative monitoring procedures, as set out in the request for exception approved by the Board. In 2022, alternative procedures were applied in the following six countries: Bulgaria, Croatia, Romania, Tajikistan, Tunisia and Uzbekistan.

Number of contracts	54
Total value	€ 1,282,781,693
EBRD funded portion	€ 285,457,632
Average EBRD financing	22%
Largest contract	€ 760,754,457

## 2.11 The Nuclear Safety Department

The EBRD manages seven nuclear safety Funds with over €4 billion in pledged contributions. Each Fund is governed by specific provisions as set out in the Rules of the Fund approved by the respective Assembly of Contributors and by the EBRD Board of Directors. The Funds are managed by the Nuclear Safety Department (NSD) on behalf of the contributing countries. Procurement under the Funds must follow the EBRD's PPR for public sector projects.

	2021	2022
Number of contracts signed	4	18
Value of contracts signed (€ million)	2	12

**Table 2.11.1** illustrates the distribution of NSD administered contracts by size and type.

Contract Size (€ million)	Works	Goods	Consultant Services	Total
<0.3	0	9	2	11
0.3~7.5	0	6	1	7
<b>Total</b>	<b>0</b>	<b>15</b>	<b>3</b>	<b>18</b>

The largest contract by value was for **KIDSF - Decommissioning-Repository PMU Consultant € 7,266,849**

## 2.12 Annexes covering 2022

### Country and sector tendering analysis

**Annex 1** provides a breakdown by Country of Operations of all contracts signed (excluding NSD funded contracts) showing the winning tenderer and participating tenderers.

**Annex 2** provides the total value of contracts signed, distributed by type and by country of origin of the winning companies.

**Annex 3** presents the level of interest generated by business sector in the respective countries of operations

**Annex 4** presents the distribution of tenders submitted by country of origin of the tenderers and by countries of operations

**Annex 5** presents the distribution of submitted tenders by country of origin of the tenderers and by business sector

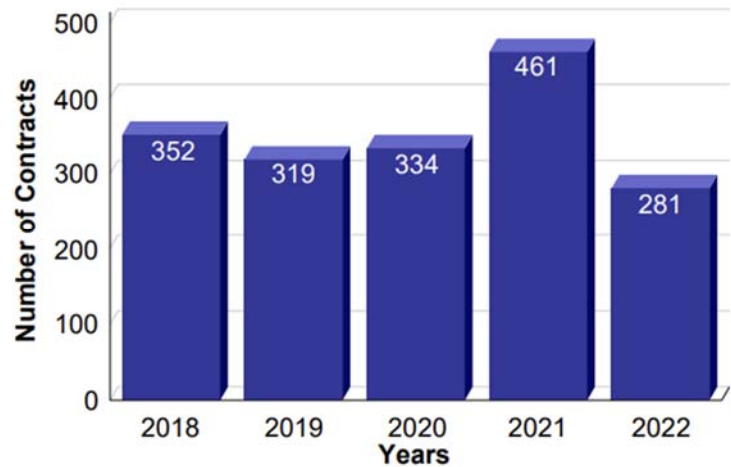

**Annex 6** awards by country of origin of the tenderers (Value by Procurement Method)

**Annex 10** Contracts placed under Nuclear Safety managed funds

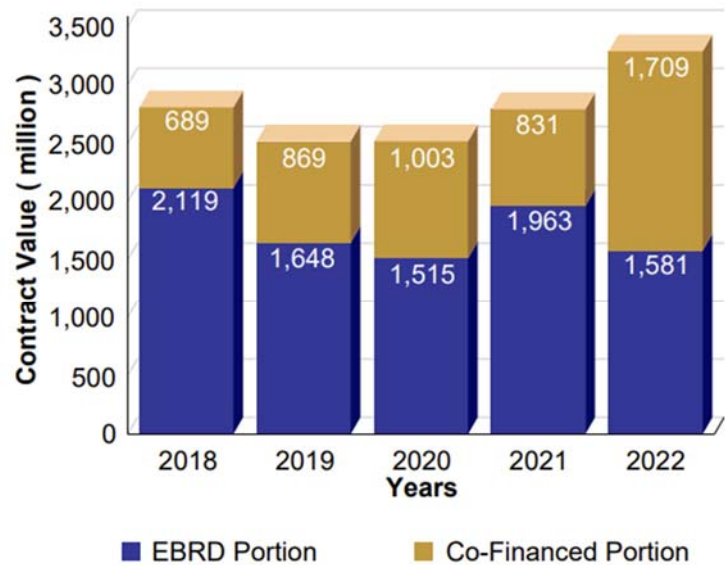

2.13 – 2.16 Covers the five year 2018-2022 data

2.13 Analysis by sector

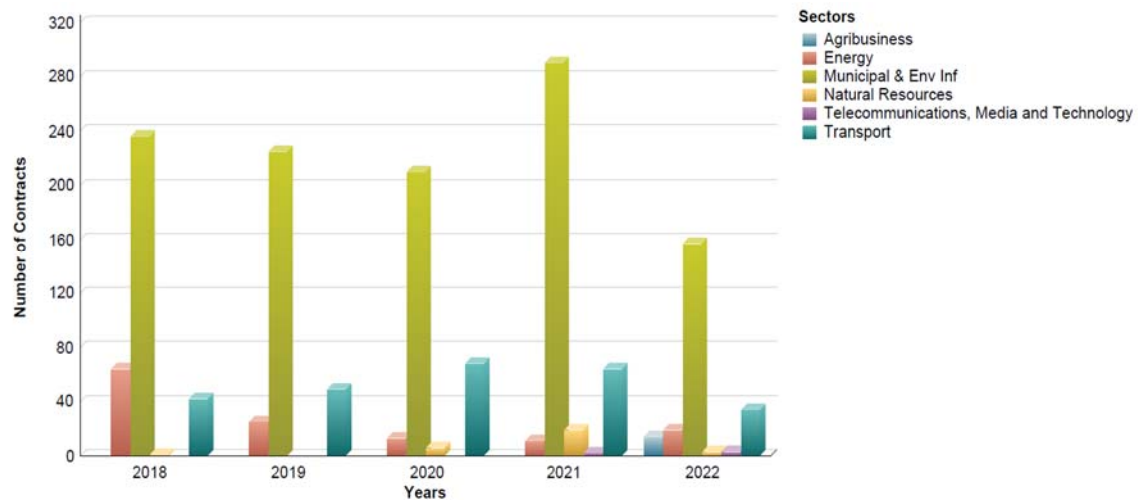

**Chart 2.13.1a** illustrates the number of public sector contracts signed between 2018 and 2022

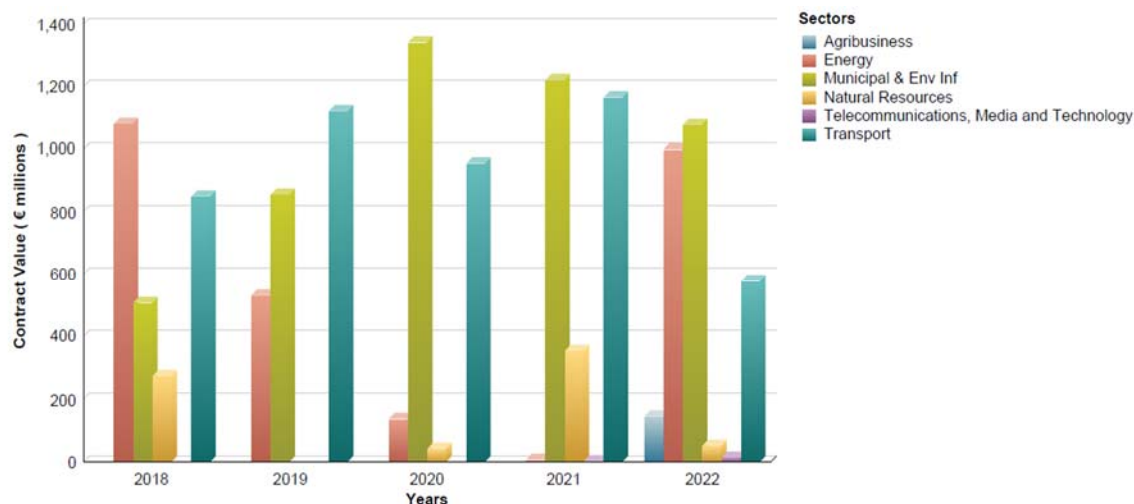

**Chart 2.13.1b** demonstrates the overall contract value as well as the portion financed by the EBRD between 2018 and 2022. Over the past five years, a total of 1,747 contracts have been signed with a total value of € 13.927 billion of which the EBRD financed € 8.826 billion.

**Chart 2.13.1c** illustrates the overall number of public sector contracts signed between 2018 and 2022 by business sector. With a total number of 1,118 contracts, with the MEI sector having the highest contracting activity.

**Chart 2.13.1d** illustrates the overall contract value of public sector contracts signed between 2018 and 2022 by business sector. The Transport sector recorded the highest contracting activity with € 5.070 billion over the past five years.

## 2.14 Cumulative 2018 - 2022 data overview

The below information shows the countries with the highest total value of contracting over the past five years in descending order.

Country of Operations	Awarded Value (€)
Romania	1,504 million
Kazakhstan	1,279million
Türkiye	1.186 million
Ukraine	1.044 million
Bosnia and Herzegovina	1.018 million
<b>Overall - Total</b>	<b>6,030 million</b>

The contracts in these five countries amounted to € 6.030 billion, which represented 43 per cent of the overall total contract value of the past five years (€ 13.927 billion).

Tenderers from Türkiye have been the most successful over the last five years as they have won a total of € 2.397 billion or 17 per cent of the overall contract value. During the past five years the countries with the highest total amount of contract value were, in descending order:

Rank	Tenderer Country	Total Contract Value Awarded (€)
1	Türkiye	2,397 million
2	China	1,279 million
3	Romania	1,253 million
4	Spain	1,001 million
5	Kazakhstan	726 million

The contracts won by companies from these five countries amount to € 6.656 billion which represented 48 per cent of the overall total contract value for the past five years. According to the country of origin of the companies, out of the 1,747 contracts administered by EBRD the highest numbers of contracts were awarded to companies from:

Rank	Tenderer Country	Number of Contracts
1	Romania	153
2	Bulgaria	140
3	Tajikistan	126
4	Kazakhstan	124
5	Kyrgyz Republic	115

The number of contracts won by companies from these five countries is 658, which represented 38 per cent of the overall total contract count for the past five years.

In the period 2018 to 2022 no public sector contracts were reported in: Estonia; Greece; Hungary; Latvia; Lebanon; Lithuania; Slovak Republic; Slovenia; Turkmenistan; West Bank and Gaza

## 2.15 Public Procurement Opportunities

**Table 2.16.1** illustrates the data regarding the public procurement opportunities posted on the Bank's Internet site and the EBRD procurement portal (ECEPP). It should be noted that the procurement notices were also sent to the United Nations Development Business for posting in the MDB business opportunity section.

Year	General Procurement Notices	Invitations for Expressions of Interest	Invitations to Prequalify	Invitations for Tenders	Total
2018	103	44	19	199	398
2019	127	66	23	193	409
2020	137	48	12	134	331
2021	85	27	13	150	275
2022	87	15	12	195	309

## 2.16 Annexes covering 2018 - 2022

**Annex 7** provides a distribution by country of origin of the successful tenderers and the value of contracts signed

**Annex 8** provides the same breakdown but on the basis of the total number of public sector contracts won and signed

**Annex 9** provides public sector contract awards in the Countries of Operations by value

### **3. Compliance and integrity**

#### **3.1 Procurement Complaints**

##### **3.1.1. Procurement complaint review process**

The Bank's role in a procurement complaints review process is to determine if the Bank Client has followed the agreed procurement procedures. In case the Bank has determined that a Client has not materially followed the agreed procedures, in accordance with the PPR the Bank may declare the contract in question ineligible for Bank financing and the outstanding portion of the financing allocated to the contract may be cancelled.<sup>2</sup> A determination by the Bank to uphold a procurement complaint might affect the availability of Bank financing for the contract, but may not alter the outcome of the procurement process.

In 2022, all procurement complaints were reviewed in accordance with the provisions of the Procurement Complaints Review Directive, which had come into effect on 1 October 2020. The essential features of this Directive can be summarised as follows:

A procurement complaint will only be considered by the Bank if filed by or on behalf of a participant in a procurement process after the deadline for:

- (a) In respect of goods, works, commodities and non-consultancy services tenders, the opening of the final tender which includes the financial proposal;
- (b) In respect of consultancy services, the opening of the financial proposal.

Issues raised by participants in a procurement process prior to the above deadlines are dealt with by the Bank in accordance with the provisions of the Guidance Note on "Request for Bank Procurement Review".

Furthermore, procurement complaints will only be considered by the Bank if:

- (a) the complaining participant has requested and received a debriefing by the Bank's Client or if the Bank's Client declined to arrange a debriefing explicitly or by not responding to a request;
- (b) the complaint is set forth in the format of the EBRD Procurement Complaints Form, duly completed, accompanied by relevant documents, and submitted via the Bank's procurement complaints portal; and
- (c) the complaining participant has provided reference(s) to the paragraph(s) or section(s) of the tender documents that are alleged to have been violated and has described the substantive nature of the issues raised.

Complaints that are received by the Bank in any other form or through any other communication channel will not be considered by the Bank and will be forwarded to the Client for its review and response.

---

<sup>2</sup> Please refer to Section III, Article 2.12 of the PPR dated 1 November 2017 or with Section III, Article 2.15 of the PPR dated 15 May 2022, as applicable.

### 3.1.2. Procurement Complaints during 2018 - 2022

**Table 3.1.2** illustrates the number of procurement complaints closed in 2018 - 2022 by contract type

Contract type	2018	2019	2020	2021	2022
<b>Works</b>	9	6	6	3	6
<b>Goods</b>	3	2	6	5	6
<b>Supply and Installation<sup>3</sup></b>	2	1	N/A	N/A	N/A
<b>Commodities</b>	0	0	0	0	0
<b>Consultancy</b>	1	2	2	4	4
<b>Total</b>	<b>16</b>	<b>11</b>	<b>14</b>	<b>12</b>	<b>16</b>

### 3.1.3. Procurement Complaints during 2022

In 2022, PPAD registered 8 new procurement complaints for Bank-financed or administered contracts and continued to review 10 procurement complaints received in 2021. During the course of 2022, PPAD closed 16 procurement complaints as compared with 12 procurement complaints in 2021. At the end of 2022, 2 procurement complaints remained outstanding.

### 3.1.4 Summary of all complaints

The complaints raised by participants in 2022 varied in nature. The following main issues were raised:

- Challenging the Client's decision to disqualify a participant on technical grounds;
- Challenging the qualification of the lowest priced participant;
- Allegation that the winning participant did not fulfil the requirements of the tender documents;
- Allegation that the successful participant had submitted an abnormally low tender price;
- Challenging the Client's scoring of a consultant's technical proposal.

In terms of the duration of the review of complaints, after receipt by the Bank, 5 complaints were finalised within a period of less than 2 months, 8 complaints were finalised within 3 to 4 months, the remaining 3 complaints were finalised between 8 and 11 months.<sup>4</sup>

### 3.1.5. Complaints closed by the Bank in 2022

The following section provides a summary of the 16 complaints that were closed in 2022. The review of 2 further complaints was still ongoing as at 31 December 2022. The information provided includes the nature and the outcome of the complaint process for each of these complaints. As is set out below: 12 complaints were rejected, 3 complaints were closed without a decision of the PCC, and 1 complaint was upheld by the Bank.

#### 1. Project: Orsha Waste Water sub-project (Belarus)

*Country of Complainant:* Poland  
*Contract Amount:* €5 million  
*Timeline:* < 11 months

*Nature of Complaint:*

The Complainant alleged that the successful participant for the contract with reference "OWP-1 - Upgrade of the Wastewater Treatment Plant" did not meet the qualification criteria in the procurement documents. The Complainant therefore requested a verification by the Bank of the contract award decision.

*Outcome of the Complaint Review Process:*

<sup>3</sup> From 2020, contracts for "Supply and Installation" are included in the contract type category of "Works or "Goods", as appropriate.

<sup>4</sup> The timeline for handling of procurement complaints runs from the date of receipt by the Bank of the procurement complaint until the date on which the Bank has made the final determination on whether to uphold the complaint.

Due to the outbreak of the war on Ukraine, the review of the complaint was initially put on hold. In May 2022, the Bank's loan agreement with the Client was cancelled. Therefore, the review of the complaint was closed and the Complainant was informed accordingly.

## **2. Project: Namangan Water Project (Uzbekistan)**

*Country of Complainant:* Azerbaijan  
*Contract Amount:* €16.3 million  
*Timeline:* < 4 months

### *Nature of Complaint:*

The Complainant alleged that, prior to the tender submissions deadline, the Client issued a communication to all potential participants advising that (a) it expected that the deadline for submission of tenders would be extended; and (b) an official notification in this regard would be issued the following week. The Complainant alleged that the Client subsequently failed to issue such official notification and failed to extend the deadline for submission. As a result, the Complainant was denied the opportunity to participate in the procurement exercise.

### *Outcome of the Complaint Review Process:*

The Bank determined that the procurement process had not been undertaken in accordance with the key principles of the PPR, including in a fair and transparent manner. The Bank considered that after the Client's earlier explicit message about a likely upcoming extension, the Client should have subsequently informed the participants about its decision not to extend the tender submission deadline. The Client's failure to communicate this decision was construed by the Bank as misprocurement in accordance with Section III, Article 2.12 of the Bank's PPR dated 1 November 2017. The Bank upheld the complaint.

## **3. Project: UPTF2: Mykolayiv Trolleybus (Ukraine)**

*Country of Complainant:* Ukraine  
*Contract Amount:* €5 million  
*Timeline:* < 8 months

### *Nature of Complaint:*

The complaint concerned Lot 2 of the Mykolayiv Trolleybus project: "20 units of low-floor 12-meter trolleybuses with power storage system ...". The Complainant claimed that the tender evaluation had not been carried out in accordance with the evaluation criteria set out in the procurement documents, and the "agreed EBRD procedures". According to the Complainant, the winning participant's proposal was not fully responsive to the technical specifications of the procurement documents and that the contract for Lot 2 was awarded after the expiry of the tender validity date.

### *Outcome of the Complaint Review Process:*

The Client terminated the contract with the successful participant. The review of the complaint by the Bank was therefore considered redundant. The complaint was subsequently closed.

## **4. Project: GrCF2 W2- Izmir Metro Project III (Türkiye)**

*Country of Complainant:* Türkiye  
*Contract Amount:* €650 million  
*Timeline:* < 4 months

### *Nature of Complaint:*

The Complainant alleged that the tender submitted by the successful participant was to be considered an 'Abnormally Low Tender' and should therefore have been rejected.

### *Outcome of the Complaint Review Process:*

The Bank determined that the Client had undertaken the tender evaluation process, in particular its assessment on whether the winning participant's tender was to be qualified as 'abnormally low', materially in accordance with the procurement documents and the PPR. Consequently, the complaint was not upheld.

#### **5. Project: GrCF2 W2- Izmir Metro Project III (Türkiye)**

*Country of Complainant:* Türkiye  
*Contract Amount:* €650 million  
*Timeline:* < 3 months

##### *Nature of Complaint:*

The Complainant alleged that: (a) the evaluation process had not been undertaken in accordance with the method described in the procurement documents, (b) the Client had applied a different approach in the evaluation of tenders for a previous Bank financed project which demonstrates its bias towards the successful participant, and (c) the process followed by the Client to determine the Complainant's proposal to be 'abnormally low' had been unfair.

##### *Outcome of the Complaint Review Process:*

The Bank determined that the Client had undertaken the tender evaluation process, in particular its assessment on whether a proposal was to be considered 'abnormally low', materially in accordance with the procurement documents and the PPR. Consequently, the complaint was not upheld.

#### **6. Project: GrCF2 W2- Izmir Metro Project III (Türkiye)**

*Country of Complainant:* Türkiye  
*Contract Amount:* €650 million  
*Timeline:* < 4 months

##### *Nature of Complaint:*

The Complainant alleged that the Client did not take the Client's own cost estimate into account in the evaluation of tender prices and had accepted an abnormally low tender price for which the works could not be successfully executed. In addition, the Complainant alleged that it understood that the project will be subject to a number of substantive technical changes in the future, which made it possible for participants to offer very low prices at the tendering stage, but which will result in a significant number of variation orders and additional costs during the subsequent contract implementation period.

##### *Outcome of the Complaint Review Process:*

The Bank determined that the Client had undertaken the tender evaluation process, in particular its assessment on whether the winning participant's tender was to be qualified as 'abnormally low', materially in accordance with the procurement documents and the PPR. Consequently, the complaint was not upheld.

#### **7. Project: GrCF2 W2 - Bishkek Buses (Kyrgyz Republic)**

*Country of Complainant:* Czech Republic and Kyrgyz Republic  
*Contract Amount:* €0.65 million  
*Timeline:* <3 months

##### *Nature of Complaint:*

The procurement complaint related to a single stage competitive selection process for consultancy services to assist the Client's Project Implementation Unit ("PIU") with the procurement of buses for the city of Bishkek. The Complainant asserted that the debriefing provided by the evaluation committee at the PIU about its evaluation of the Complainant's proposal was "insufficient and incomplete". The Complainant further alleged misprocurement by the PIU, because its "evaluation [was] based on factors unrelated to quality of services". In this regard, the Complainant raised the following issues:

- (a) The evaluation committee gave the Complainant's technical proposal a low score; and
- (b) The evaluation committee used "disproportionate and subjective scoring among the bidders without justifying assigned scores".

The Complainant requested the cancellation of the procurement process.

*Outcome of the Complaint Review Process:*

The Bank established that there was satisfactory evidence that the scoring of the Complainant's technical proposal by the evaluation committee was justified and overall correctly reflected the strengths and weaknesses of the Complainant's technical proposal. It was determined that the debriefing provided by the PIU to the Complainant about the evaluation of its technical proposal was brief and may not have fully addressed in detail the Complainant's questions on the strengths and weaknesses of its technical proposal. However, based on the overall findings of this complaint review, the Bank concluded that the allegations made by the Complainant were unfounded. Consequently, the complaint was not upheld.

**8. Project: Plava Voda Regional Water Supply (Bosnia and Herzegovina)**

*Country of Complainant:* **Bosnia and Herzegovina**  
*Contract Amount:* €0.37 million  
*Timeline:* < 2 months

*Nature of Complaint:*

The procurement complaint concerned a contract for consultancy services in relation to the Financial and Operational Improvement Programme, Public Service Contract, Non-Revenue Water and procurement for leak repairs under the Plava Voda Regional Water Supply Project. The Complainant raised two main issues:

- (a) the Client violated its obligation of confidentiality of the proposal evaluation process as stipulated under the procurement documents; and
- (b) the Client conducted inaccurately the evaluation process of the technical and financial proposals.

*Outcome of the Complaint Review Process:*

With regards to point (a), it was established that after the Bank's no-objection to the contract being awarded to a proposed consultant and prior to the letters to the unsuccessful consultants having been sent out, a representative of the Client publicly announced the result of the evaluation of the submitted proposals. As this did not change the proposal evaluation result as no-objectioned by the Bank, it was determined that there was no material violation of the procurement procedure. With regards to point (b) the Bank established that the Client had undertaken the evaluation of the submitted proposals in accordance with the agreed evaluation criteria and methodology. Consequently, the Bank decided not to uphold the complaint.

**9. Project: MR3: Mersin CNG Bus Project (Türkiye)**

*Country of Complainant:* Türkiye  
*Contract Amount:* €21.95 million  
*Timeline:* < 1 month

*Nature of Complaint:*

The complaint concerned the "Purchase of 100 CNG Buses for the municipality transports" under the "Mersin CNG Bus Project" in Türkiye. The Complainant's main objections to the tender award process related to the SORT 1 (Standardized On Road Testcycle) testing requirements and the Client's alleged faulty evaluation of these concerning the winning participant's proposal.

*Outcome of the Complaint Review Process:*

The Bank concluded that the Complainant's reference to a tender process by another authority which included different values under the SORT 1 testing in their tender was not relevant to the tender for which they had submitted a complaint. The Complainant had the opportunity to raise their specific concerns regarding the applied SORT 1 testing on receipt of the procurement documents and prior to their first stage tender submission. During the second stage of the tender, there was further opportunity for the Complainant to raise clarifications on the tender. The specific concerns raised in their complaint were not raised by themselves or any other firm at any time during the clarification process. Consequently, the Bank decided not to uphold the complaint.

#### **10. Project: UPTF2: Mykolayiv Trolleybus (Ukraine)**

*Country of Complainant:* Ukraine  
*Contract Amount:* €5 million  
*Timeline:* < 8 months

##### *Nature of Complaint:*

The complaint concerned Lot 2 of the Mykolayiv Trolleybus project: "20 units of low-floor 12-meter trolleybuses with power storage system...". The Complainant requested for a cancellation of the contract award and a retendering of the contract under the following grounds:

- (a) The Client did not act in accordance with the applicable tender procurement procedure by awarding the contract after expiry of the tender validity date; and
- (b) During the debriefing process, the Client did not provide to the Complainant a detailed explanation for the Client's rejection of the Complainant's proposal.

##### *Outcome of the Complaint Review Process:*

The Client terminated the contract with the successful participant. The review of the complaint by the Bank was therefore considered redundant. The complaint was subsequently closed.

#### **11. Project: MEPSO Rehabilitation and Control Project (North Macedonia)**

*Country of Complainant:* Bosnia and Herzegovina  
*Contract Amount:* €5 million  
*Timeline:* < 2 months

##### *Nature of Complaint:*

The complaint concerned the contract for the supply of telecommunication equipment and remote monitoring of substation equipment. The Complainant's main objections to the contract award process were the following:

- (a) The Complainant's proposal fully met the tender requirements and should have been accepted;
- (b) The winning participant did not meet the economic and financial qualification requirements;
- (c) Some of the technical requirements in the procurement documents had been directly copied from the technical specifications of certain components that are supplied by one particular company. Consequently, according to the Complainant, "no other reputable vendors in the field of telecommunication for power telecommunication systems" had participated in the tender and therefore the tender process should be cancelled and re-tendered.

##### *Outcome of the Complaint Review Process:*

The Bank determined that the Client conducted the tender evaluation in accordance with the applicable requirements. Consequently, the complaint was not upheld.

#### **11. Project: Türkiye COVID-19 Equipment Emergency Response (Türkiye)**

*Country of Complainant:* Türkiye  
*Contract Amount:* €4.25 million  
*Timeline:* < 3 months

##### *Nature of Complaint:*

The complaint concerned the procurement of "50 Dual Detection Floor Mounted (Lot 30)", under the COVID-19 Equipment Emergency Response Project. The Complainant was seeking a re-evaluation of its tender submission by a "competent, impartial, independent, fair, honest and reliable commission". The Complainant alleged that:

- (a) They were unfairly treated in terms of the time allowed to object to the contract award;
- (b) The Client had incorrectly evaluated the Complainant's tender security and that the Client had unfairly set the amount of the tender security in the tender requirement at a high value so as to reduce the potential number of tenderers participating in the tender;

- (c) The Client had incorrectly claimed that supplemental technical documentation required for tender evaluation had not been submitted by the Complainant;
- (d) The Client had set the annual turnover amount at such a high amount this would result in limited competition and the Client had declined the Complainant's request to evaluate the tender pre-qualification requirement of its annual turnover after the tender submission deadline; and
- (e) The scope of the tender specifications were drafted in such manner as to target one single supplier who eventually won the contract.

*Outcome of the Complaint Review Process:*

The Bank determined that the Client had overall conducted the tender and evaluation process in a satisfactory manner and in accordance with the requirements of the procurement documents and that the Client's recommendation to reject the complainant's tender on the primary grounds of a non-compliant tender security was justified. Consequently, the complaint was not upheld.

**13. Project: Türkiye: Türkiye COVID-19 Equipment Emergency Response**

*Country of Complainant:* Türkiye  
*Contract Amount:* €4.25 million  
*Timeline:* < 3 months

*Nature of Complaint:*

The complaint concerned the procurement of "50 Dual Detection Floor Mounted (Lot 30)", under the COVID-19 Equipment Emergency Response Project. The Complainant alleged that:

- (a) The Client did not respond to the Complainant's requests during the clarification period;
- (b) The Complainant had been provided with very limited time to submit a debriefing request regarding the contract award;
- (c) According to the Complainant, the device offered by the winning participant had a material technical deviation from the requirements and the proposal should have been rejected; and
- (d) A member of the Client's evaluation committee had a conflict of interest in relation to the participant who was recommended for contract award.

*Outcome of the Complaint Review Process:*

The Bank determined that the Client had generally conducted the tender and evaluation process in a satisfactory manner and in accordance with the requirements of the procurement documents. The Bank furthermore concluded that on the basis of the available evidence the winning participant did not have a conflict of interest. Consequently, the complaint was not upheld.

**14. Project: Ispartakule- Cerkezkoy Railway Line (Türkiye)**

*Country of Complainant:* Türkiye  
*Contract Amount:* €610 million  
*Timeline:* < 4 months

*Nature of Complaint:*

This procurement complaint concerned the contract for the construction of Ispartakule-Cerkezkoy Section of the Halkali - Kapikule Railway Line Project. The Complainant alleged that the winning participant's proposal should have been rejected as non-responsive, because it should have been classified as "abnormally low". According to the Complainant, the contract should have been awarded to them as the substantially responsive tenderer.

*Outcome of the Complaint Review Process:*

The Bank engaged a technical consultant to assess if the winning participant's proposal should be classified as an "abnormally low tender". The technical consultant confirmed the Client's analysis and conclusion that the proposal submitted by the winning participant was not "abnormally low". Consequently, the complaint was not upheld.

### 15. Project: Türkiye: Ispartakule- Cerkezkoy Railway Line

*Country of Complainant:* Türkiye  
*Contract Amount:* €7.46 million  
*Timeline:* < 2 month

#### *Nature of Complaint:*

The procurement complaint related to a two-stage open competitive selection process for the consultancy contract of "Supervision of Works Construction of Ispartakule- Cerkezkoy Section of Halkali-Kapikule Railway Line". The Complainant alleged that:

- (a) During the debriefing, the Client did not provide responses to the Complainant's queries;
- (b) The proposal of the winning participant had not been shared with the Complainant during debriefing due to confidentiality concerns, which was according to the Complainant not in line with the EBRD transparency policy;
- (c) The financial proposal of the winning participant was significantly lower than those of the other participants, raising the question whether the proposal was "abnormally low" or unreasonable;
- (d) Some key experts of the winning participants did not meet the threshold as stipulated in the technical evaluation; and
- (e) The replacement of key experts during contract negotiations was limited in accordance with the "Instructions to Consultants" in the "Request for Proposals" and only allowed in certain circumstances after prolongation of validity.

#### *Outcome of the Complaint Review Process:*

The Bank determined that in relation to the raised issues of lack of transparency, confidentiality, evaluation methodology, financial evaluation and replacement of experts, the Client conducted the procurement process overall in line with the relevant provisions in the procurement documents and guidances. Consequently, the complaint was not upheld.

### 16. Project: Bosnia and Herzegovina, Tunnel Prenj

*Country of Complainant:* Italy  
*Contract Amount:* €6 million  
*Timeline:* < 2 months

#### *Nature of Complaint:*

The procurement complaint concerned the contract for consultancy services for the development of the preliminary design with elements of detailed design for the works contract for Tunnel Prenj and tender documents under the "Corridor Vc - Ovcari - Tunnel Prenj - Mostar North" project. The Complainant alleged that the Client's final evaluation of the technical and financial proposals was unfounded: the explanations of the evaluation process in the debriefing were too vague in outlining the strengths and weaknesses of the Complainant's technical proposal.

#### *Outcome of the Complaint Review Process:*

The Bank noted that the combined technical and financial scoring resulted in a very close outcome in terms of the final ranking of three participants. Although the first ranked participant had the highest technical score, the relatively low financial proposal submitted by the Complainant resulted in a close overall outcome of the tender. The Bank's findings were that the evaluation was satisfactorily conducted in accordance with the provisions of the procurement documents and that the Client's recommendation for contract award was appropriate. Consequently, the complaint was not upheld.

## 3.2 Prohibited practices

The Agreement Establishing the European Bank for Reconstruction and Development expressly provides that the Bank must take all necessary measures to ensure that the proceeds of its financing are used solely for the purposes for which such financing was granted. To this end, OCCO investigates and, if appropriate, recommends sanctions for corrupt, fraudulent, coercive, collusive and obstructive practices, theft, and misuse of Bank resources or Bank assets (Prohibited Practices) pursuant to the Bank's Enforcement Policy and Procedures

(EPPs).

In 2010, the Agreement for Mutual Enforcement of Debarment Decisions (AMEDD) was signed by the African Development Bank Group, the Asian Development Bank, the Inter-American Development Bank Group, the World Bank Group and the Bank pursuant to which it was agreed that these Mutual Enforcement Institutions would recognise each other's debarment decisions by cross-debarment of the same entities and individuals if specific conditions are met. Entities (and their affiliates) or individuals are ineligible to become the Bank's counterparty in any new Bank project if - in accordance with the EPPs - it is determined that (a) they have engaged in any Prohibited Practice in the context of a Bank project or Bank assets, (b) they are subject to a Third Party Finding, or (c) they are subject to a debarment decision by a Mutual Enforcement Institution.

In 2022, enforcement proceedings resulted in the debarment of two entities for four years and one entity for a period of 2.5 years.

In 2022, in accordance with the AMEDD, the Bank cross-debarred 327 entities and 53 individuals and requested the cross-debarment of three entities, who have been subsequently cross-debarred.

Entities and individuals (cross-) debarred by the Bank are ineligible to be awarded Bank-funded contracts during the (cross-) debarment period. On its website the Bank publishes all entities and individuals it (cross-) debarred over the years ([http:// www.ebrd.com/ineligible-entities.html](http://www.ebrd.com/ineligible-entities.html)).

PPAD and OCCO work closely together in relation to public sector procurements. The Procurement Function refers potential Prohibited Practices matters to OCCO, provides information on Bank-financed procurement projects to OCCO if required for its investigation, and shares its knowledge and experience about procurements with OCCO. In addition, following the conclusion of its investigations, OCCO shares any relevant lessons learned with PPAD to further strengthen the Bank's procurement processes.

## 4. Procurement Policy and Advisory Department (PPAD)

### 4.1 Introduction

The Bank's procurement function provides services and advice to both internal and external clients. It is responsible for developing, updating the procurement policy and procurement policy related documents, monitoring compliance with the PPR, training staff and supporting clients, creating and maintaining an appropriate procurement quality assurance system and disseminating information about procurement opportunities and other useful information to the business community. Furthermore, the function supports Countries of Operation in their procurement transitional efforts. To achieve these objectives the procurement function is divided into two parts: 1) The Procurement Policy and Advisory Department (PPAD Policy), which has the overall procurement policy responsibility; and 2) operational support (PPAD implementation) to the Banking Teams and NSD. PPAD is part of the Vice Presidency for Risk and Compliance.

### 4.2 Analysis

The Bank's public sector clients with support of the Bank's procurement experts, managed to maintain a very high level of procurement activities. The overall number of contracts including the gas related projects is 331 with a total value of €3.721 billion, a record overall figure for public sector contracting, exceeding the three billion mark for the first time.

Despite the overall record level of the contracting value, the relatively small sample of contracts spread over different countries and sectors, is however not enough to identify any specific conclusions or firm trends. The level of the procurement activities strongly correlates with the Bank's investments in public sector and its expanding the range of products offered to clients.

In the opinion of PPAD, the statistics do however demonstrate that the Bank's open tendering and competitive selection procedures being the most competitive, transparent and truly open are the most efficient procurement methods. Data also demonstrate a high level of interest from market players worldwide. On average, 3.3 tenders were submitted under open and competitive tendering procedures and tenders were submitted by companies and consortia from 58 countries.

A stable trend is observed in respect of growing competitiveness of the companies from the countries of operation expressed by their success rate. 65% of all tenders were submitted by participants from Countries of Operations and 78% of all the contracts (71% in value) awarded in 2022.

The main observations in respect of factors having a negative impact on the progress of the project implementation are low implementation capacity of many Bank clients, as well as limited and often inadequate resources available for consultancy support and insufficiently prepared projects. However, despite the above mentioned challenges, in 2022 PPAD managed to support the Bank's clients to achieve a stable contracting rate, as illustrated in this report, as well as to contribute to an overall record of the Bank's disbursement volume under public sector projects in excess of € 2.4 billion.

The Nuclear Sector statistics reflects a current focus on contracts already under long implementation periods. New projects are under consideration but not yet agreed.

### 4.3 Revision to the Procurement Policies and Rules 2022

In accordance with Article 13(xiii) of the Agreement establishing the Bank, "the Bank shall take the necessary measures to ensure that the proceeds of any loan made, guaranteed or participated in by the Bank, or any equity investment, are used only for the purposes for which the loan or equity investment was granted and with due attention to considerations of economy and efficiency."

To this end, in 1992 the Bank adopted the first version of the PPR, which sets out the principles and rules governing the procurement of goods, works, services and consultancy services contracted by clients in projects financed by the Bank in both the public and the private sector. Since its establishment, the Bank has significantly expanded the range and nature of its operations, as well as the products and instruments it offers to clients. Furthermore, the global procurement environment has extensively changed and substantive procurement, legal and economic reforms have been undertaken by many of the Bank's countries of operation. The Bank has therefore over the years amended the PPR several times to ensure the policy would continue serving its intended purpose. The previous version of the PPR was approved by the EBRD Board of Directors in 2017 and the policy was due for revision in 2022. The revised policy, the PPR 2022, was adopted on 4 May 2022.

This revision has been most fundamental and comprehensive amendment of the PPR since the adoption of the first version of the policy in 1992. The overarching objectives of the revisions were to ensure that the PPR continue to be 'fit-for-purpose' and responsive to the Bank's and clients' efficiency needs as well as to allow the Bank to focus its procurement resources on high risk projects and contracts, where the Bank is best suited to provide maximum value-add to clients. An additional aim was to suggest a more streamlined structure of the PPR.

The substantive amendments concerned, inter alia, (i) strengthening the PPR's aim of achieving value for money, (ii) reducing transactional costs, (iii) improving the convenience for clients and market players, (iv) addressing past challenges with the application of the PPR. Moreover, in an effort to streamline, all public sector procurement rules have been grouped in one section of the PPR and two other procurement-related policies (the Concession Policy and the Retroactive Financing Policy) were merged into the PPR. The non-substantive revisions are proposed to provide for internal consistency, better coverage and clarity as well as to enable improved fiduciary oversight for Bank-financed contracts that are procured pursuant to the PPR.

PPAD held extensive internal consultations with relevant Bank departments, who provided helpful feedback which enabled for further improvement of the PPR. The draft of the revised policy was also shared for external consultations with the Government Procurement Agreement Secretariat of the WTO, UNCITRAL, EIB and ADB, who provided generally positive feedback.

Since the PPR 2022 was adopted in May 2022, PPAD has received favourable feedback from client and market players. Based on the experience so far PPAD is confident that the PPR 2022 is 'fit-for-purpose' and will enable the Bank to keep providing the most value-add to its clients in the coming years whilst maintaining an appropriate level of fiduciary oversight.

## **4.4 Support to Banking teams and clients**

### **4.4.1 Overview**

The support to Banking teams and NSD is the main priority for PPAD and is significant in terms of the use of PPAD's resources. PPAD is actively involved on a daily basis in the procurement aspects of all public sector projects, as well as, private sector projects involving procurement elements. PPAD is assisting the project teams in their due diligence, structuring, preparation and monitoring procurement arrangements for and implementation of the Bank administered projects and providing advice and guidance both on specific and generic matters to ensure compliance with the requirements of the PPR.

In 2022, PPAD Policy provided direct support to the Natural Resources team for the Naftogaz Eurobond Facility and Moldova Gas, in total 50 contracts for a value of € 431 million were signed (EUR 225 million for Naftogaz and EUR 206 million for Moldova Gas all 100% Bank financed). Due to the confidential nature of the pricing of natural gas, the breakdown of the contract prices are not included in the overall statistics of this report.

### **4.4.2 Procurement impact of the war in Ukraine**

Considering that the Bank's internal policies and processes were designed to function in an environment of free and globally open market economy, the normal approach may not be optimal to support the Bank's emergency responses in support of Ukraine, and therefore require modifications of the standard practices during project preparation, tendering and implementation.

There are a number of operational risks and challenges posed by the above, including but not limited to:

- ✓ Fast changing priorities in operational focus;
- ✓ Rapid project scoping and structuring;
- ✓ Very high risk of assets impairment and clients' bankruptcy;
- ✓ Implementation challenges, including:
  - serious health and safety risks for the people working on the Bank's projects, especially the staff of consultants and contractors;
  - severe market disruptions (leading to limitation of competitiveness and affecting the value for money approach);
  - logistical challenges;
  - security risks;

- inability to insure the assets financed by the Bank;
- conflict with provisions of certain policies due to the sanction and restriction regimes;
- substantially increased risk of corruption;
- inability for effective monitoring of the project implementation;
- risk of financing dual use equipment or facilities, whilst the Bank mandate does not allow financing for defence-related activities.

### **The impact on contracting activities during 2022:**

#### **Works contracts**

The number of contracts terminated was not as high as expected but almost all contracts were temporary suspended. Some foreign contractor managed to resume the works via local contractors combined with providing online supervision of the works. Some local contractors have remobilised onsite, particularly in areas far from the active front line. In contracts with mobilisation before the war, design works continued remotely.

The largest terminated contract is the Dnipro Metro Construction, which is also associated with a high technical/technological risks. To ensure the safety of the site a local company (a subcontractor in the original contract) was directly contracted to manage the risk of tunnels over-flooding and collapsing. The main reason for the termination was the Contractor's inability to obtain insurances and bank guarantees for works in Ukraine.

#### **Goods contracts**

The contracts for trolleybuses involving a Belarusian manufacturer were terminated and there were delays in contracts involving Ukrainian manufacturers as they face disruptions in supply of components and materials and regular power outages. Some contracts were suspended or the time for completion extended. The only choice for international delivery was delivery to the Ukrainian border or EXW and related services to be provided remotely online.

#### **Consultancy Services contracts**

No terminations occurred and some consultants managed to keep presence in Ukraine via local experts, but still the services are mostly provided remotely.

#### **Tenders**

All but one tenders for Works was cancelled, with the intention to be re-launched once the situation stabilises.

#### **Sanctions**

The continually evolving situation in regards to sanctions has a profound impact on EBRD financed tenders in general and the war in Ukraine has considerably exacerbated the impact.

### **4.4.2 Selective Reviews**

As an integral part of enhancing the quality of the services to the clients and an important element of fiduciary oversight function of the Bank, in 2022, risk based selective reviews of documents were carried out to cover 50 procurement processes (total amount of approximately €6.12 billion, involving Bank's financing of approximately €3.18 billion). These processes represent about 10 per cent of 517 procurement process the Bank's clients were carrying out and cover about 56 per cent of the total contract value (or 48 per cent of the Bank's financing). 12 of these processes resulted in 2022 in contract awards for a total contract amount equivalent to €371 million. The rest of the processes, but one (cancelled) are ongoing.

### **4.4.3 Contracts and selective review pipeline**

The current portfolio of contracts under PPAD monitoring consists of 1,752 signed contracts in progress (total contract value equivalent to €14.84 billion); as well as 704 contracts (total contract value equivalent to €14.95 billion) to be signed, of which 286 procurement processes for contracts (total value equivalent to €10.1 billion) are currently in progress. 245 of the ongoing processes (total contract value equivalent to €9.36 billion) are run via ECEPP.

74 procurement processes (10 per cent of the procurement portfolio to be procured), covering a contract value exceeding €7.76 billion (52 per cent of the total value) are currently identified to be subject to selective review. It should be noted that procurement processes identified for selective review are indicated in the procurement plans attached to the Board document or the Delegated Authority for each project. However, PPAD Policy may revise the selective review plan during the implementation of projects to optimise resources and increase the effectiveness of the selective review process.

#### **4.4.4 EBRD Client Electronic Procurement Portal (ECEPP)**

ECEPP continues to be the mandatory platform for public sector procurement for EBRD financed public sector projects, which are subject to the PPR. The system is used by clients in 28 Countries of Operations. More than 20,500 users from 149 countries are registered in the system to participate in procurement opportunities under Bank financed projects.

#### **4.4.5 SME support**

The PPR applies to the activities of the Advice for Small Businesses (ASB) of the SME Finance & Development Group (SME F&D), who introduces SMEs to local consultants with specific know-how who can help them improve performance and grow. Upon successful completion of the advisory assignment, a grant is paid to the beneficiary SME from funding provided predominantly by bilateral or multilateral donors, occasionally from SSF. Most advisory projects are run on a cost-sharing basis, with the client paying a portion of the total project cost and ensuring the sustainability of the intervention.

- In 2022, SME F&D signed 1,975 Grant Agreements with beneficiary SMEs (under client-led contracting) for ASB assignments carried out by local consultants in 30 Countries of Operation. The reduction of almost 5% in number of Grant Agreements issued over 2021 was due to the impact of the war in Ukraine and other affected countries. This was offset by scaling up of other tools of ASB (under different contracting modalities) as well as piloting a new product in Ukraine, Relocation grants, aimed at supporting SMEs relocate their businesses outside of the war zone.
- The total value of those Grant Agreements in 2022 was €16.2 million, which was topped up by client contributions totaling €9.4 million (or 37%) towards the total value of advisory assignments of €25.6 million. The increase in total value of Grant Agreements issued in 2022 over 2021 is explained by a slight increase in consultancy fees across the countries as well as the complexity of assignments.

### **4.5 Policy dialogue**

#### **4.5.1 Introduction**

In addition to supporting the Banking teams and clients, PPAD's remit include many other aspects such as procurement policy dialogue with Countries of Operation, cooperation with other international institutions such as MDBs and International organisations, such as OECD, UN, EU, WTO, FIDIC etc., local capacity building in form of two university based master programmes in public procurement management, specific workshops, outreach activities, procurement complaints handling, development and update of policy related documents and guidance notes.

The policy dialogue function of PPAD is reflected in the PPR, which require the Bank to review together with its Countries of Operation their procurement laws, regulations and procedures on a periodical basis, and provide advisory services, technical assistance and training to help them reach consistency with the principles of the WTO Government Procurement Agreement and harmonisation with the key principles of the PPR.

#### **4.5.2 Cooperation with Authorities of the Countries of Operation**

In order to accomplish the requirements of the PPR, PPAD is engaged in a continuous policy dialogue with the governments of selected Countries of Operations, their procurement authorities and institutions.

In 2022, the policy dialogue with the Countries of Operations was affected by the war in Ukraine, given that the technical assistance financial resources were directed to support Ukraine and only limited funds available to support the policy dialogue activities in other countries.

Nevertheless, PPAD managed to maintain constructive policy dialogue with the Procurement, Anti-monopoly and Anti-Corruption Authorities of Albania, Armenia, Azerbaijan, Georgia, Kazakhstan, Kyrgyzstan, Lebanon

and Uzbekistan, focusing on improving project implementation and procurement systems in the countries as well as on anti-corruption measures.

PPAD was also providing its strong support to Ukraine to help the authorities to adjust their way of doing business, especially as public procurement and infrastructure maintenance are concerned, under the challenging conditions of war time.

#### **4.5.3 EBRD-UNCITRAL Initiative (Led by LTT in cooperation with PPAD)**

The EBRD-UNCITRAL Initiative and the related technical assistance and programmes were initiated and the ongoing programmes progressed in the following countries: Albania, Lebanon, Moldova, Tajikistan and Uzbekistan.

The Initiative promotes a legislative reform and institutional capacity building project aimed at upgrading the public procurement legislation to the standards of the 2011 UNCITRAL Public Procurement Model Law. This initiative is one of the key policy dialogue activities PPAD is involved in, working in close cooperation with LTT, who leads implementation of the initiative.

#### **4.5.4 EBRD - WTO GPA Secretariat Cooperation (Led by LTT in cooperation with PPAD)**

The above work was undertaken as part of the EBRD GPA Technical Cooperation Facility, which was set up to provide an independent assessment of compliance of the procurement legal framework of countries with mandatory GPA requirements, regulatory capacity building and support in the preparation of a national GPA negotiating strategy, providing legal and policy advice throughout the WTO GPA negotiation process. The Facility also assists with the development of new public procurement legislation, if necessary, to align national laws with the 2012 GPA standards.

Under the auspices of the Facility and in close cooperation with the World Trade Organisation Government Procurement Agreement (WTO GPA) Secretariat, further sub-projects were carried out to assist the Bank's countries of operation with the adaptation of their procurement laws to the standards of WTO GPA and the countries' accession to the Agreement.

Out of 38 Countries of Operation, at present 16 countries are parties of the WTO GPA.

At present, eight Countries of Operation, which are WTO members, are in the process of acceding, namely Albania, Georgia, Jordan, Kazakhstan, Kyrgyz Republic, North Macedonia, the Russian Federation and Tajikistan.

Belarus, Mongolia and Türkiye have the status of observers, but have not yet formally initiated the accession negotiation process. On request of the countries LTT in cooperation with PPAD continued to provide advice and support in the accession process.

#### **4.5.5 EBRD OECD Anti-Corruption Network Cooperation**

Within the framework of a broad cooperation with the OECD/Anti-corruption network for Eastern Europe and Central Asia and the Istanbul anti-corruption action plan, PPAD experts were part of the working group piloting a new methodology of assessment of the countries corruption risks and anti-corruption programs.

Following assessment of five countries (namely Armenia, Azerbaijan, Georgia, Moldova, and Ukraine) EBRD worked with OECD on finalizing a revised assessment methodology, preparing respective guidance notes and presentations.

PPAD participated in meetings of the Anti-corruption network for Eastern Europe and Central Asia.

#### **4.5.6 EBRD OECD MAPS Cooperation**

PPAD was one of the key stakeholders in development of the OECD Methodology for Assessing Procurement Systems (MAPS), as the tool that assesses public procurement systems in their entirety, back in 2015-2018. The methodology is universal and can be used by all countries - regardless of income level or development status.

Since inauguration, PPAD was supporting and partially financing MAPS Secretariat (as the cornerstone of MAPS assessments), and played an active role as one of the Steering Committee members and provider of critical

expertise on the procurement systems and practice in the countries of operation through Technical Advisory Group.

By end of 2022, the following countries of operation were assessed using the methodology: Greece, Kazakhstan, Lebanon, Moldova and Tunisia. Assessments are ongoing for Montenegro and Morocco, planned for Uzbekistan, when the discussions on potential assessments are ongoing with the governments of Armenia, Kyrgyzstan and Tajikistan.

#### **4.5.7 Cooperation with International Organisations**

Based on its longstanding cooperation with partner institutions, PPAD coordinated the policy dialogue initiatives in the region with the African Development Bank, the Asian Development Bank, the Asian Infrastructure Investment Bank, the Council of Europe Development Bank, the European Investment Bank, the Islamic Development Bank, the World Bank, EU, FIDIC, OECD/SIGMA, OSCE, and, as mentioned above in cooperation with LTT, UNICTRAL, and the WTO GPA Secretariat.

### **4.6 MDB collaboration**

PPAD continues to play an active and often leading role in procurement policy discussions among the major MDBs. The MDB Heads of Procurement (HoP) normally meet approximately every ten months to discuss and agree on joint efforts and harmonisation of procurement principles but during the pandemic the HoP group met every two to three weeks on-line. In 2022 the HoP met physically for the first time since 2019 in a meeting hosted by the latest joining HoP member, IFAD. Discussions were focussed on topics related to sustainable procurement, the war in Ukraine and its impact on procurement, the World Bank's adoption of merit point system evaluation etc.

### **4.7 Internal Capacity Building and external Professionalisation**

#### **4.7.1 Staff training**

In 2022, PPAD obtained sign-off from Bank Management for a strategic five year training plan. The strategy focuses on four pillars, training of PPAD staff, Banking staff, EBRD Clients and the general contracting and consulting community in the form of outreach. The strategy will form the basis for the development bespoke training for each group as well as utilising existing organisations programmes (such as FIDIC for contracting and attainment of CIPS certification) to increase the professionalism and capacity of those involved in EBRD public sector projects.

PPAD conducted 43 ECEPP training webinars, which were attended by a total of 250 people (clients, consultants, Bank staff in HQ and ROs).

#### **4.7.2 Procurement Function Capacity Building**

In 2022, PPAD held monthly Procurement meetings. The meetings were carried out with the overall objective of ensuring consistency in the interpretation of the PPR. The meetings are also used as a vehicle for early consultation and subsequent finalisation of internal and external procurement guidance material, policy papers and standard procurement documentation.

PPAD staff completed a course focusing on the new FIDIC Short Form of Contract (Green Book). The sessions covered changes to the contracts terms and conditions, various new elements and development of the contracts, as well as, the practical application of the contract.

#### **4.7.3 Professionalisation of Procurement**

The International Master in Public Procurement Management (IMPPM)

IMPPM is a full post-graduate university course concentrated and delivered in one calendar-year on a Master level at the University of Rome – “Tor Vergata” and consists of four months of in-presence classes. At the University of Belgrade, Faculty of Law, the IMPPM is run as an executive Master programme. Both follow the same curriculum, with traditional didactic lectures, balanced with case studies and seminars, including lectures on IFI procurement delivered by PPAD Senior Advisers. This formal part of the programme is followed by distance learning and a practical compulsory internship, followed by preparation, submission and defence of a final dissertation. Monitoring of learning progress is done through using customary Masters level exam methods,

consisting of mid-term and final exams in order to record individual student's proficiency. Upon successful completion, a Master's degree is awarded by the Master's Executive Committee.

The objective of the IMPPM is to build procurement capacity through a comprehensive and structured English language university programme designed to address the capacity building needs of senior managers of public procurement authorities and major public entities in the EBRD countries of operation. The core learning concept is a combination of academic and work-place experience with hands-on activities, developed in modules covering in addition to in depth well-structured theoretical coverage, the best procurement practice topics, such as: Strategy & Organisation; Legal Framework & Procurement Law; Purchasing Strategy & Procedures; Procurement Cycle & Planning; Environmental, Sustainability and Social concerns. Economic Market & Products Analysis; Ethical aspects & Red flags and IFI specific procurement.

In 2022, the programme continued to be conducted in a virtual format. Both universities continued to deliver high quality content without compromising the structure and scope of the programme.

Carefully selected students who are all already established procurement professionals, benefit from EBRD donor funded scholarships. The classes in Rome and in Belgrade, are always very heterogeneous in terms of cultural background and national origin, with students coming from many different Countries of Operation (Albania, Armenia, Azerbaijan, Belarus, Bosnia and Herzegovina, Bulgaria, Croatia, Egypt, Hungary Jordan, Kazakhstan, Kyrgyzstan, Latvia, Lebanon, Moldova, Montenegro, North Macedonia, Romania, Russia, Serbia, Slovakia, Tajikistan, Tunisia, Türkiye, Ukraine and Uzbekistan) as well as from other countries such as Afghanistan, Bangladesh, Belgium, Gambia, Germany, Indonesia, Italy, Liberia, Libya, Namibia Nigeria, Senegal, Sierra Leone.

The EBRD and IMPPM administration team's joint recruiting strategy resulted in added benefits in building a sustainable Master Programme. So far 468 (59% female) public procurement officials from 52 countries, (including 26 Countries of Operation) have graduated from this Master Programme and many of the graduates involved with EBRD on projects. The Master Programme is supported by EIB, World Bank, Council of Europe Bank, African Development Bank, UNDP who all participate during the IFI procurement module. The IsDB and AfDB have financed additional candidates.

The joint work of the EBRD and universities, with support from Technical assistance funds (CEI, Ministry of Economy of Italy, SSF, Slovak TC funds, Taiwanese TC funds, and private sponsors) have facilitated the successful delivery of ten generations of the IMPPM, in Rome and six generation in Belgrade, so far.

#### **4.8 Procurement related meetings, seminars and outreach activities**

PPAD was involved in various procurement-related initiatives and events aimed at the business community or other organisations:

- Participation at multiple virtual Heads of Procurement meetings;
- In person and virtual lectures and conferences in Belgrade and Rome for the IMPPM programmes;
- The annual International Conference "FIDIC Business Days"
- Various virtual ECEPP training and events for multiple clients and suppliers,
- A virtual outreach to the Irish business community with Business Development;
- Attendance at the OECD/ACN MAPS and steering committee meetings;
- Attending the Global Revolution conference at Nottingham University
- IFI Joint Procurement Workshop for Roads in Astana;
- Attending "Leading Practitioners in Procurement" at the OECD in Paris;
- Speaker at IFI Procurement conference – Enterprise Ireland;
- Speaker at IFI Day - Switzerland Global Enterprise;
- Panel contribution at the "Infrastructure projects in developing countries" in Miami;
- Participation at the OECD Maps steering group meeting;
- Attendee at the International Energy Efficiency Conference in Sarajevo;
- Attendance at the Heads of Procurement meeting in Paris.
